

RAVENOL Insect Remover

Kategorie: Car care products

Artikelnummer: 1360072

0.5L | 1360072-500

5L | 1360072-005

RAVENOL Insect Remover effortlessly removes insect residues and soiling such as bee or bird droppings. Despite its powerful effect, surfaces and paintwork are protected during application. A pleasant scent remains after use.

RAVENOL Insect Remover is precisely designed for the material mix of windscreens and fairings, etc. Thanks to its strong effect, it requires only a small amount and is therefore very economical to use. Due to the strong cleaning effect, the use of water can also be limited.

Application Note

RAVENOL Insect Remover is applied to the affected areas, left to react 1-3min., depending on the level of soiling and afterwards washed off with water. In case of heavy soiling, either extend the application time, repeat the process or help with our RAVENOL Mikrofasertücher Autopflegeset (a microfiber cloths car care set). After rinsing, always wipe off with a clean cloth, or clean at a car wash.

RAVENOL Insect Remover should only be applied to moisture-resistant surfaces. Do not use on hot surfaces or in direct sunlight. The cleaner must not be allowed to dry on the surface. Insect residues can damage the paintwork and should be removed as quickly as possible.

Note:

RAVENOL Insect Remover is stored in sealed containers in a dry and cool place. Protect from direct sunlight, frost and heat. If used correctly, the cleaner is suitable for water treatment systems. Must not get into the hands of children. Wash hands thoroughly after use.

Characteristics

- versatile in application
- strong effect
- for all common materials on the exterior of vehicles
- gentle on materials
- ready to use
