Kategorie: Car care products

Artikelnummer: 1360071

Application: Motorcycle

0.5L | 1360071-500

5L | 1360071-005

RAVENOL Motobike Cleaner effortlessly removes dirt such as dust, oil, grease, brake dust and other stubborn residues from motorcycles, scooters or quads. Particularly suitable for use on plastic coverings, upholstery, fabrics or engine/frame parts and metal surfaces. (If the cleaning includes leather surfaces, these must be re-greased).

RAVENOL Motobike Cleaner is precisely designed for the comprehensive material mix of motorcycles, etc. Due to its strong effect, it requires only a small amount and is therefore very economical to use. Thanks to the strong cleaning effect, the use of water, can also be limited, which is gentle on the motorcycle's electrical system.

Application Note

RAVENOL Motobike Cleaner is applied to the soiled surfaces, left to take effect and washed off with water. In case of heavy soiling, either extend the exposure time, repeat the process or help with our

RAVENOL Mikrofaserl cher Autopflegeset (a microfiber cloths car care set). After rinsing, wipe off with a clean cloth.

RAVENOL Motobike Cleaner should only be applied to moisture-resistant surfaces and colorfast textiles. Leather surfaces treated with the cleaner must be re-greased.

Do not apply in the blazing sun and do not allow to dry.

Note:

RAVENOL Motobike Cleaner is stored in sealed containers in a dry and cool place. Protect from direct sunlight, frost and heat. When used according to type, the cleaner is suitable for water treatment systems and does not affect the function of oil separators. Keep out of the reach of children. Wash hands thoroughly after use.

Characteristics

- very versatile in application
- strong effect
- especially produced for material mix of motorcycles, etc.
