RAVENOL Rim Cleaner Magic is a specially developed, acid-free cleaner for aluminum and steel rims as well as hubcaps. Easily removes intensive soiling such as brake dust, road dirt, oil and rubber residues as well as many other types of dirt.

RAVENOL Rim Cleaner Magic can be observed in its cleaning action by the red coloration of the soiled areas. It is used for manual cleaning. The rim surface itself is not affected. Contact of the cleaner with other parts and components such as brake callipers, wheel bolts, etc. is harmless.

RAVENOL Rim Cleaner Magic is pH-neutral and therefore suitable for all types of rims.

Application Note

RAVENOL Rim Cleaner Magic is sprayed directly and evenly onto the rim. Make sure that all cleaning-relevant areas are covered with sufficient amounts of the cleaner so that the effect is ensured to be optimal. Depending on the degree of soiling, leave to react for 3-5 minutes or until its color changes. Then rinse thoroughly with a strong jet of water. In addition, our RAVENOL Mikrofaser-tücher Autopflegeset (a microfiber cloth car care set) can be used to treat extremely dirty areas; suitable gloves should be worn.

RAVENOL Rim Cleaner Magic should not be used in direct sunlight and should not be applied to hot surfaces. The Cleaner must not be allowed to dry on the applied surface.

Note:

RAVENOL Rim Cleaner Magic should be tested for material compatibility in an appropriate place. For aftermarket rims, follow the manufacturer's instructions for use.

RAVENOL Rim Cleaner Magic is stored in sealed containers in a dry and cool place. Protect from direct sunlight, heat and frost. Keep out of the reach of children. Wash hands thoroughly after use.

Characteristics

- suitable for all types of rims
- red color indicator shows cleaning action
- pH-neutral
- removes all types of dirt
